BODIES FOR SPRINTERS

## Heavy Duty Tempered Aluminum Alloy Truck Flats

### TC-500 RETAIL PRICES

100% heat-treated aluminum alloy construction. All materials are 6061-T6 extrusion with 37,000-PSI minimum tensile strength. The floor is constructed of aluminum alloy plank extrusions that provide rigid reinforcement every 5". Std. stringers are 4" x 2 1/4" channel (optional 6" & 8" avail.). Rub rails are a custom shape providing a 5-1/2" side height, with extruded side ribs for added strength and improved appearance. All rails have 1 1/2" x 3 1/4" stake pockets in the tops. Bed corners are mitered for safety and improved appearance. Complete with flush mounting 2-1/2" grommet style clearance, marker, and I.D. FMVSS lights with wiring harness.

**Flats:** To order with no trapdoor use **P/N D1-02817** plus W x L - e.g. D1-02817 81x95  
To order with 15x15 trapdoor use **P/N D1-02936** plus W x L – Add \$134.00 to Dealer Price
